## Summer Camp Descriptions

Camps are designed to be educational and filled with fun, hands-on activities built around a central theme. There will still be a quiet/nap time in the afternoon for those campers that need it, as well as some time dedicated each day for creative play. Camps are recommended for children ages 3 – 8, but older kids are welcome.

**1. June 19<sup>th</sup> – 23<sup>rd</sup>**

### **Earth Savers (K-6)**

Reduce, Reuse, Recycle! It's all about learning the importance of limiting our carbon footprint on earth. We want to challenge campers to think about their environment and how they can make an impact!

**2. June 26<sup>th</sup> – 30<sup>th</sup>**

### **RASA Art Masters (PS-6)**

Prepare your paint brushes, markers, and crayons! This week we will be exploring the lives of famous artists worldwide. We will use their techniques to create our own masterpieces!

**3. July 5<sup>th</sup> – 7<sup>th</sup>**

### **Robots and Coding (PS-6)**

This week our campers will be learning how to code using different techniques and programs. Campers will have the opportunity to use those skills to program our robots. ***\*No camp on Monday, July 3<sup>rd</sup> or Tuesday, July 4<sup>th</sup>.***

**4. July 10<sup>th</sup> – 14<sup>th</sup>**

### **The Great RASA Detectives (PS-6)**

This camp features fun-filled, hands-on, secret agent-themed science activities that allow kids to play detective, explore forensic science, sharpen their surveillance skills, and crack encrypted messages. Kids become super sleuths!

**5. July 17<sup>th</sup> – July 21<sup>st</sup>**

### **Games, Games, and More Games (PS-6)**

This week is all about having fun and playing games. Board games, gym games, playground games, brain games, and much more!

**6. July 24<sup>th</sup> – July 28<sup>th</sup>**

### **Art and Literature (PS-6)**

The campers will be creating art based on some of our favorite children's books. We will be creating masterpieces based on the styles of different authors and illustrators.

**7. July 31<sup>st</sup> – August 4<sup>th</sup>**

### **Water and Ice (PS-6)**

The heat of the summer won't stop us from having an amazing water-themed week! This is another one of our most popular weeks because of the endless uses of H<sub>2</sub>O! Get ready to be in the splash zone! If the weather doesn't cooperate, we will be exploring frozen H<sub>2</sub>O.

**8. August 7<sup>th</sup> – 11<sup>th</sup>**

### **Chef Masters (PS-6)**

Our little Chefs will work on creating recipes, mixing ingredients, and trying their creations. All of our cooking will be safe and fun — any heating or sharp cutting will be done by our camp staff and all recipes will avoid common allergens. This camp is a great way to try some new foods, practice measuring and mixing, and see what it takes to master the kitchen!

**9. August 14<sup>th</sup> – 18<sup>th</sup>**

### **Science Explorers (PS-6)**

Your child will become a junior scientist for the week, having the opportunity to experience a variety of unique and fun activities. Join us as we become Einstein and learn about the scientific process.
